Dear Mike:

For months have just since you started working on our home. From building a 10 x 20 shed, to replacing our roof, to remodeling our bathroom, we have been very pleased + completely satisfied with you and your workmen. Every thing was done professionally + there never was a question of your dissatisfaction. As a result of this we had you put up a large addition to serve as our family room. Again the work is excellent, done professionally + completed before the proposed completion date even with three days of rain. I have never experienced this in all the years that I have dealt with the building trade. You are without question, "the best in the business". Should any of your prospective clients feel uncertain of your services, have them call me. My wife + I are enjoying your company + we feel as though a family member is leaving us now that all the work is completed. Thank you so much.
